This summer was full of learning, fun and new friends. The opportunity with NMF was invaluable! Thank you!!
- Karen Jane Ní Bhroin, *conductor*

I was mostly anxious coming to NMF. Instead, I've had an experience more incredible than I could have imagined. Being able to be completely immersed in music for two weeks has reminded me how meaningful this part of my life is. I had forgotten how incredible it was to play in an orchestra, so I sincerely hope you enjoyed the music as much as I enjoyed making it...Thank you for making the National Music Festival possible and for me to participate in it. I hope to see you again!

I have loved Rimsky-Korsakov's *Scheherazade* since I was a teen. But I'd never heard it performed live until tonight's National Music Festival concert. Now I never have to hear it again. I don't think anything could surpass this performance for me. Live music by young folks playing their hearts out!
